### **The European training programme for social circus trainers**

During 2 days, professionals and amateurs in circus arts, coordinators of European networks along with local, national and European political representatives and university researchers will join us to exchange views on how can we further develop the sector in order to increase the benefits of social circus for the young people with fewer opportunities in Europe and beyond.

More than 14 countries will be represented, among which France, Finland, Romania, Czech Republic, Russian Federation, Morocco and Canada,...

A fantastic show created by a social circus company will conclude the first day of the seminar.

Round tables, press conference, workshops, informal networking and exchanges in a friendly atmosphere and a social circus show are the ingredients of this European social circus seminar!
